1. Applicant's arguments with respect to claims 1-3, 5-7 and 9-13 have been considered but are moot in view of the new ground(s) of rejection.

2. Claims 1-3, 5-7 and 9-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 7, line 3: the term "the light source" lacks proper antecedent basis; and at line 5: the term "a material" at line 5" renders the claim vague since it remains unclear as to the material recited at line 5 is same as or different from that recited earlier in the claim; at lines 7 and 8: the terms "of the type" render the claim indefinite, as per MPEP section 2173. Claims 1-3, 5, 6 and 9-13 are necessarily rejected since they depend upon claim 7.

3. Claim 8 is allowable over prior art since it includes limitations of former dependent claim 4, which was objected to but allowable. In view of allowability of present claim 7, and due to dependencies of all dependent claims upon claim 4, previous restriction requirement is withdrawn and previous withdrawn claims 2, 3, and 9-12 are now rejoined.

4. Claim 7 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

5. Claims 1-3, 5, 6, and 9-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
